

CERTIFICATE OF COMPLIANCE

DATE: January 1, 2020
SUBJECT: Conflict Minerals Compliance

Dear Valued Customer,

Thank you for your inquiry concerning the use of conflict minerals (Tin, Tantalum, Tungsten and Gold) originating from the Democratic Republic of Congo or an adjoining country.

Please be informed that Cambridge Security Seals line of products are primarily produced with plastic resin and or stainless steel and are materials with minimal risk. For the few suppliers that provide us with components with metallic content, we have a compliance program agreement which requires them to notify us of any content change.

According to our suppliers and vendors, and to the best of our knowledge, the raw materials and manufacturing processes used in standard and modified standard product lines do not possess Tin, Tungsten, Tantalum or Gold as identified in the aforementioned regulation. However, be advised that Cambridge Security Seals does not test products for these substances.

Cambridge Security Seals hereby declares that all products provided do not contain conflict identified substances and that these substances will not be used in the future.

Please contact me with any further questions you may have. Thank you for your interest in our security products.
